

CARBU CLEANER ULTRA

SPECIAL CARBURETTOR CLEANER

APPLICATIONS

CARBU CLEANER ULTRA cleans and degreases the different parts in the carburettor without dismantling. It also eliminates any oil, gum and varnish and other difficult to remove impurities.

Application :

- With the engine stopped, remove the air filter.
- Spray the product directly into the carburettor air intake and over the different parts of the carburettor.
- Start again with the engine turned on (spray across the throttle valve).
- Finally, stop the engine and repeat the operation a third time.

BENEFITS

- Dissolves the most tenacious impurities without problems. Quickly and completely eliminates oil, gum, varnish and other surface deposits.
- Its optimum evaporation time enables the product to act in depth on the surfaces and parts to be cleaned.

PRODUCT CHARACTERISTICS

CHARACTERISTICS	UNITS	METHODS	TYPICAL DATA
Appearance	-	Visual	Liquid
Colour	-	Visual	Pale yellow
Type	-	-	Solvent mix
Specific gravity at 20°C	kg/m ³	NF T 60-101	790

This typical data is given for information only

AEROSOL CHARACTERISTICS

- Gross volume : 650 ml
- Net content : 500 ml
- Net weight : 346 g
- Weight of active product : 225 g
- Double ball bearing valve for use in different positions.
- Supplied with 2 spray heads : 1 short (minijet) and 1 long.
