

HEES FOOD+ ULTRA

ORGANIC AND INCIDENTAL FOOD CONTACT MULTI-FUNCTIONAL

APPLICATIONS

HEES FOOD+ ULTRA is a multi-functional, anti-humidity, anti-corrosion lubricant with good penetrating and cleaning properties.

HEES FOOD+ ULTRA is biodegradable, silicone-free and approved for incidental food contact.

BENEFITS

- Leaves a very thin film with multiple properties on treated surfaces.
- Excellent coefficient of friction
- Easily biodegradable according to the OECD 301B test
- VOC-free
- Does not contain chlorine, and aromatic or benzene compounds

PERFORMANCE

APPROVAL (1) | NSF H1 (No. 144036)

(1) Certificate of approval available on request

PRODUCT CHARACTERISTICS

CHARACTERISTICS	UNITS	METHODS	TYPICAL DATA
Appearance	-	Visual	Clear
Colour	-	Visual	Amber-coloured
Type	-	-	Plant-based esters
Density at 20°C	kg/m ³	NF T 60-101	837
Biodegradability	%	OECD 301 B	> 60

The typical characteristics provided are only approximate values

SPRAY CHARACTERISTICS

- Gross volume: 650 ml
- Net content: 500 ml (per box of 12 units)

HEALTH, SAFETY AND ENVIRONMENT

Do not dispose of this can until it is completely empty.

Disposal after use must be carried out in accordance with the legislation in force.

Store in a sheltered area.

Our technical department is available to provide advice if needed.

Propellant gas: CO₂
