

HUILE FILANTE POUR CHAINE

OIL USED FOR CHAIN-SAW EQUIPMENT

APPLICATIONS

HUILE FILANTE POUR CHAINE is a product specially formulated for the lubrication of any chain saws.

HUILE FILANTE POUR CHAINE is a lubricant strengthened by polymeres insuring the stickiness of the oil film.

BENEFITS

- Anti-spattering properties
- Preserves the chain of premature wear

CHARACTERISTICS

CHARACTERISTICS	UNITS	METHODS	TYPICAL DATA
Specific gravity at 15°C	kg/m ³	NF T 60-101	885
Kinematic viscosity at 40°C	mm ² /s	NF T 60-100	100
Kinematic viscosity at 100°C	mm ² /s	NF T 60-100	11,2
Viscosity index	-	NF T 60-136	97
Pour point	°C	NF T 60-105	-33
