

## KUTILUB GREEN

BIODEGRADABLE FLUID FOR METAL-WORKING AND/OR WOOD SAWING

### APPLICATIONS

**KUTILUB GREEN** is a **plant-based** very smooth oil for metal-working with the removal of shavings or deformation.

**KUTILUB GREEN** can be used as a micro-spray.

In the wood processing sector, **KUTILUB GREEN** is recommended for lubricating band saw blades, planer tables and moulders. Plant-based, **KUTILUB GREEN** is suitable for stave saw blades used in cooperage, and machine gun knives.

Thanks to its enhanced lubricity, it allows good saw performance while providing protection during use: high flash point and reduced soil pollution.

### BENEFITS

- Extremely smooth.
- Does not include toxic and silicone components.
- Biodegradable.
- High flash point
- Miscible and compatible with mineral oils

### CHARACTERISTICS

CHARACTERISTICS	UNITS	METHODS	TYPICAL DATA
Colour	-	Visual	Blonde
Specific gravity at 15°C	kg/m <sup>3</sup>	NF T 60-101	916
Kinematic viscosity at 40°C	mm <sup>2</sup> /s	NF T 60-100	36
Kinematic viscosity at 100°C	mm <sup>2</sup> /s	NF T 60-100	8
Viscosity index	-	NF T 60-136	206
Flash point	°C	NF T 60-118	310
Pour point	°C	NF T 60-105	-21
Biodegradability	%	CEC I33A93	98
Biodegradability	%	OECD 301B	> 87

### HEALTH, SAFETY AND ENVIRONMENT

Elimination must be carried out to conform to the rules set for the disposal of used machining fluids.

Must be stored AWAY FROM FROST and FROM BAD WEATHER.

Should you need further details, our Technical Department remains at your disposal.
