

TECHNICAL DATA SHEET

PROTECT PULVERISATEUR CONCENTRATED FOR CLEANING AND PROTECTING AGRICULTURAL

SPRAYERS

APPLICATIONS

PROTECT PULVERISATEUR is a concentrate to dilute in water for:

- cleaning agricultural sprayers, •
- protecting them against freezing and corrosion,
- Avoiding the drying out their seals,
- dissolving pesticide residues.

BENEFITS

- Maximum protection against freezing. \triangleright
- Allows immediate restarting of the sprayer because it does not clog the nozzles and does not destroy the seals.
- Contains a bittering agent to reduce the risk of consumption by humans or pets. ≻

USE

1) Dilute **PROTECT PULVERISATEUR** in water to provide protection from freezing at the desired level.

% volume of PROTECT PULVERISATEUR

IME OF PROTECT PULVERISATEUR	Freezing point (NFT 78102)
10	< - 4° C
25	< - 12° C
33	- 18° C
40	- 25° C
50	- 37° C

2) Pour the solution into the empty sprayer.

- Run the sprayer for a few seconds so that the product spreads in all the spraying pipes.
- 4) Winterize the sprayer.
- 5) After winter, drain the sprayer and rinse with clear water. The sprayer is ready for use again.

Note: If you wish to clean your sprayer between 2 consecutive treatments, we recommend proceeding as before, by diluting the PROTECT PULVERISATEUR to 10% and by letting it work for 2 hours.

CHARACTERISTICS

CHARACTERISTICS	UNITS	METHODS	AVERAGE VALUES
Colour		Visual	Red
Density at 20°C	kg/m ³	NFR 15.602.1	> 1,110
pH at 50% in water	-	NFT 78-103	7 to 8.5
Water content	%	NFT 78-104	4
Compatibility with hard water		NFR 15.602.6	No precipitates

TECHNICAL DATA SHEET

HYGIENE, SAFETY AND ENVIRONMENT

PROTECT PULVERISATEUR contains a monoethylene glycol base: it is therefore subject to regulatory labeling for dangerous substances (toxic when ingested).

Store in a FROST-FREE environment and away from BAD WEATHER conditions.

Our technical department is available to provide advice if needed.
