

SHP JANTES

GLOSS WHEEL CLEANER

APPLICATIONS

SHP JANTES is a cleaning product for gloss vehicle wheels made of aluminium (including anodized), steel and plastic.

This product is ready to use. It can be sprayed in the form of a fine mist. Spray from top to bottom onto a dry wheel, leave to act and rinse off with high pressure water.

Depending on certain types of dirt, it is recommended to observe a break – the time needed for penetration of the product, which varies from between 1 to 5 minutes.

Caution: this product must be used on gloss wheels and/or wheel trims. For other uses, carry out a test on a small concealed surface area prior to use.

BENEFITS

- No acid or hazardous solvents (benzene, ether, acetone, chloride solvents, etc...),
- Cleans without scratching,
- Leaves an anti-corrosive protective layer and an anti-static film which delays the re-accumulation of dirt,
- Non-flammable,
- Odourless.

CHARACTERISTICS

CHARACTERISTICS	UNITS	METHODS	TYPICAL DATA
Colour	-	Visual	Light yellow
Specific gravity at 15°C	kg/m ³	NF T 60-101	1040
pH	-	NF T 78-103	13
Restricted use temperatures	°C	-	+5 / +50
