

SOLV'CLEANER B 95

DEGREASER SOLVENT FOR FOOD-PROCESSING INDUSTRY

APPLICATIONS

SOLV'CLEANER B 95 is an odourless hydrocarbon CHLORINE-FREE solvent, used for degreasing mechanical parts of all metal types and material of food-processing industry.

SOLV'CLEANER B 95 is used for cleaning machined parts and machine tools, tooling and working areas as well as all mechanical parts that need degreasing.

SOLV'CLEANER B 95 takes effect by immersion, circulation or sprinkling. Used in a cleaning fountain, it is most effective as it is used at its maximum of saturation.

BENEFITS

- Non-flammable, low content of aromatic hydrocarbons and lack odour assure maximum protection to the user.
- Exclusively contents components appearing on the FDA 21 CFR 178.3530 list. In this way, it meets the requirements of the NSF H1 norm (for casual food contact).
- No corrosive action on degreased materials (ferrous and non-ferrous).

Do not contain chlorine and all halogens component : reduced costs of used products

CHARACTERISTICS

CHARACTERISTICS	UNITS	METHODS	TYPICAL DATA
Colour	-	Visual	Colourless
Kinematic viscosity at 20°C	mm ² /s	NF T 60-100	1,95
Relative evaporation speed (n-butyl acétate =1)	-	ASTM D 3539	0,03
Specific gravity at 20°C	Kg/m ³	NF T 60-101	769
Flash point	°C	NF T 60-118	66
Aniline point	°C	NF M 07021	81
